- Soy Complex provides healthy shine*

*65% more shine vs. untreated hair

CLAIROL
PROFESSIONAL

Premium Crème Demi Permanente Clear Mix Tones can be mixed with Clairoxide 20-volume developer to gently lighten natural and tinted hair 1-2 Levels with control.

How to use:

- Mix 2 oz. Premium Crème Demi Permanente Clear Mix Tones with 2 oz. 20-volume Clairoxide developer in bottle.
- Apply in virgin application, working approximately 1/4" off scalp through ends. After application is complete, reapply to root area. Time for 15-20 minutes. Strand test every 5 minutes until desired Level of lightening is achieved.
- To remove color build-up on ends: apply to mid-shaft area first, leaving the roots and last 1/2" of ends until last. Strand test every 5 minutes until desired Level of lightening is achieved.
- Rinse, shampoo, condition.

NOTE: Wait at least one week/one shampoo after a chemical relaxer or permanent wave.
